

LESSON PLAN

Date:	Subject:		Topic: Chassis		PoS Ref: Syllabus specific	Teacher:									
Sequence of session in scheme of work:	Focus of the session: Knowledge and understanding of types of car chassis, their properties, manufacture and normal uses,														
Expectations (Learning Outcomes): <table border="1" data-bbox="107 632 1469 1150"> <thead> <tr> <th data-bbox="107 632 394 684">Group Level</th> <th data-bbox="394 632 1158 684">Expectations</th> <th data-bbox="1158 632 1469 684">AT/Minimum</th> </tr> </thead> <tbody> <tr> <td data-bbox="107 684 394 927">All</td> <td data-bbox="394 684 1158 927"> Know the major types of chassis used in cars Know the manufacturing process to create each chassis Understand how the chassis is designed to support the vehicle purpose and examples of where it is used </td> <td data-bbox="1158 684 1469 927"> C C C </td> </tr> <tr> <td data-bbox="107 927 394 1150">Most</td> <td data-bbox="394 927 1158 1150"> Can identify the major strengths and weaknesses of each chassis design in terms of manufacture, application to vehicle purpose and maintenance/ repair Compare the advantages and disadvantage of how chassis type against </td> <td data-bbox="1158 927 1469 1150"> B B </td> </tr> </tbody> </table>				Group Level	Expectations	AT/Minimum	All	Know the major types of chassis used in cars Know the manufacturing process to create each chassis Understand how the chassis is designed to support the vehicle purpose and examples of where it is used	C C C	Most	Can identify the major strengths and weaknesses of each chassis design in terms of manufacture, application to vehicle purpose and maintenance/ repair Compare the advantages and disadvantage of how chassis type against	B B	Equipment/resources needed: Chassis type sheets Computer suite with internet access for research Chassis information sheets		
Group Level	Expectations	AT/Minimum													
All	Know the major types of chassis used in cars Know the manufacturing process to create each chassis Understand how the chassis is designed to support the vehicle purpose and examples of where it is used	C C C													
Most	Can identify the major strengths and weaknesses of each chassis design in terms of manufacture, application to vehicle purpose and maintenance/ repair Compare the advantages and disadvantage of how chassis type against	B B													
Skills to be developed: Research; Design analysis, Comparison evaluation				Assessment: Knowledge and understanding of chassis types, manufacture, use and maintenance – through completed chassis type sheets and plenary											
Differentiation: By objective; worksheet				Cross Curriculum Development (Literacy, Numeracy, Citizenship): Communication – reading/ research
